REVERENCE FOR BISMARCK.

CONGRATULATIONS ON HIS SEVENTY-EIGHTH BIRTHDAY.

PRESS AND PEOPLE JOIN IN DOING HONOR TO THE EX-CHANCELLOR-THE ARMY BILL'S CHANCES-RECTOR AHLWARDT-THE

> EXPULSION OF BRANDES FROM FRANCE.

Berlin, April 1.—To-day is the seventy-eighth an niversary of the birth of Prince Bismarck, and a numof the Berlin papers publish congratulatory articles. The "National Zeitung" says that the wides circles of the German people remember with gratitude and reverence the founder of the Empire, and they all unite in the wish that he may long be preserved to the Nation. A band of the Prince's admirers in North Germany assembled in Kiel early this morning, and thence proceeded to Friedrichsruhe to tender their congratulations to the Prince. Count Herbert Bismarck and his wife arrived at Friedrichsruhe on Wednesday last from Flume to take part in the celebrations. Among the many presents received by the great statesman was a splendid album sent by a namber of Germans in Costa Rica. This album contain 100 photographs of the beautiful scenery of the little Central American Republic.

A BISMARCK FOUNTAIN INAUGURATED. The Bismarck fountain in the market place in Jena n Saze-Weimar-Eisenach, was inaugurated to-day The fountain is on the spot where Prince Bismarch delivered his famous oration last summer. A greacommers was to have been held to-day, but it has been postponed until Thursday, as has also a large torch-light procession that had been fixed for to-night. The ements were made necessary by the fact that under the Brandenburg Sabbath regulations such fes tivities are forbidden during Fassion Week. THE ARMY EILL AND THE CHANCES OF DIS-

SOLUTION.

Dr. Von Bennigsen, the National Liberal leader, ha sumed his negotiations, aiming to get the Government to accept in a modified form the proposals he has idy made relative to the Army bill. Herren Huene and Lieber are preparing new resolutions to be submitted upon the second reading of the bill in the Reichstag. These simultaneous movements induce the belief in political circles that the dissolution of the Reichstag will yet be avoided. The bill will not again appear in the Reichstag until the return of Emperor William from Italy, after the celebration of King Humbert's silver wedding. He will probably return on May 4. During the Easter recess both the Government and the party leaders have more keenly realized the grave consequences arising from the struggle, which may imperil some of the fundamental Institutions of the Empire.

SOCIALISTS TO SHOW THEIR STRENGTH. A spirit of compromise prevails everywhere, except among the Socialist cliques. If the party leaders are thoroughly convinced that the Reichstag is within month of dissolution, their disregard of organized action in the electoral field is unaccountable. While much individual activity is apparent in meetings in the constituencies, nothing is being done in regularly concerted work by the members of the Centre, the National Liberals or the Conservatives. Something like a definite electoral campaign has been arranged by the Socialists, who have decided to present can didates in all the 397 electoral districts, intending thus to obtain a Socialist vote that will impress public opinion with their numerical s r ngth.

AHLWARDT TELLING THE SAME OLD STORY.

The Conservatives have definitely thrown over Hector Ahlwardt, but, irrepressible as ever, he per vades the country, venting old scandals with his At Stettin, at a conference on German thought in conflict with Hebrew thought, Ahlwardt developed to the satisfaction of his audience the thesis that all the moral and social evils now afficing Germany arese from the Hebrews. He concluded his address by declaring that as soon as concluded his address by declaring that as soon as the Reichstag met he would produce proofs of corruption under the Bismarck regime and since Bismarck held office. A somewhat similar conference that it was proposed to hold in Dresden has been forbidden by the police. The organizers have had the audacity to invite Dr. Miquel, Prussian Minister of Finance against whom Ahlwardt has specifically directed his attack, and Secretary of the Treasury Maltzahn to open the discussion and to reply to Ahlwardt. Emperor William has advised the Government to consider is protected by his membership in the Reichstag. Emperor has suggested that action be taken against him on the ground that he is a danger to public morality. It is understood, however, that a majority of the Ministers are unwilling to interfere In the matter, as his repression might convert him, in the eyes of the anti-Semites, into a martyr to his

CONDEMNING THE EXPULSION OF BRANDES. The "North German Gazette's" article on the expulsion from France of Herr Brandes, the correspondent of the "Berliner Tageblatt," for the alleged a mementary depression on the Bourse here and at Vienna. Subsequent reflection tended to connect the article with the Army bill, any squabble with France strengthening the Government's arguments in support of the bill. The flurry on the bourses was therefore only temperary. The new-papers all concur in upbraiding the authorities of Paris for permitting a mob to attack Herr Brandes's family. The "Cologne Gazette" says it would be impossible for such scenes to occur in any civilized city except Paris. It demands that the French Government give satisfaction so complete as to stop mob asaults upon Germans in future. The "Vossische feltung" warns French statesmen that they are play ing with fire. France, it adds, must find scapegoats for her internal troubles other than prominent natives of the countries forming the Triple Alliance.

AGITATED BY MR. JUDD'S APPOINTMENT. TROUBLES OF THE COLUMBIAN REPUBLIC OUTRAGES COMMITTED BY VENEZUELANS-FAM

INE IN THE CAUCA VALLEY. Panama, March 25.—A dispatch from Bo-gota to "The Star and Herald" states that in Arauca and other frontier towns grave outrages have taker place against Colombian citizens by the Venezuelan anthorities. The trouble grose out of the confiscation of properties in these Colombian towns by Crespo's inistrator of confiscated properties," who charged that the owners of these places had been sympathizer with Andueza Palacio's usurpation, and therefore were included in Crespo's decree of October 29, 1892, on Their neutrality in the recen Venezuelan troubles, however, having been established, the confiscated properties were returned, and it is understood that large sums will be paid by way of indemnification in order to avoid international com-

plications. The famine continues to rage in the Cauca Valley where the prices of provisions have so increased life in the middle and northern districts of the department has become almost impossible to the poore classes of the inhabitants. The attention of the National Government has been directed to this state of affairs and to the necessity of adopting some means of afleviating the pitiable condition million of people who inhabit the Canca Valley and are on the brink of starvation. The Cauca Valley comprises the most thickly peopled portion of the department of that name. It is larger than France and possesses a great variety of resources ranging
